

Brillant 250 Cut Off Machine

12
inch

Sturdy. Durable.

The **Brillant 250 Cut Off Machine** is the perfect combination of durability, elegant versatility and easy operation.

A large 15 x 10" cutting table with 10 inches of travel allows large, complicated parts to be sectioned. The cutting table X and Y axis T-slot design accommodates a wide selection of clamping fixtures.

A 5.4 HP motor provides ample power for either 10" or 12" cut off wheels. The large, clear LCD display

panel controls automatic operation; length of cut, feed rate and true 'pulse' cutting. Controlled feed rate maintains constant rate of cut for deformation free sectioning. Manual override for table movement and vertical wheel position makes part positioning and quick manual cuts easy.

With the appropriate Mager cut off wheel and proper cutting method, perfect results can be achieved regardless of material type or sample shape.

Brilliant 250 Cut Off Machine

Max Cutting Capacity:
110 mm / 4.3" Diameter

Max Cut Off Wheel Size:
300 mm / 12"

Arbor Size:
32 mm / 1 1/4"

Table Size:
380 X 250 mm / 15 x 10"
Without Z-axis, 12 mm T-slot

300 X 250 mm / 12 x 10"
With Z-axis, 12 mm T-slot

Horizontal Table Movement:
250 mm / 10" Travel

Vertical Wheel Movement:
125 mm / 5"

Motor: 5.4 HP

Power:
220 V / 60 Hz, 3 Phase
480 V / 60 Hz, 3 Phase

Dimensions W x H x D:
33 x 27 x 27"

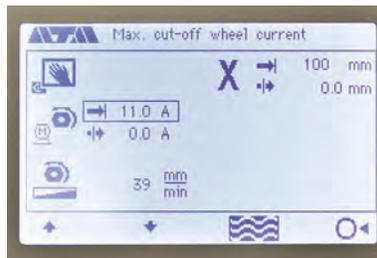

Weight: 290 lbs

Recirculation System:
45 L / 12 Gallons

Optional:

Variable Speed

SystemLab Base Cabinet
Dimensions W x H x D:
35 x 32 x 32"

Crisp **LCD Display** provides control inputs for feed rate, depth of cut, and pulse cutting. Cutting parameters can be stored when needed for easy retrieval

Stainless Steel Cutting Table with T-slots in both X and Y axes provides a versatile platform for clamping solutions

Long life **LED Light** illuminates the cutting chamber

The **SystemLab Base Cabinet** provides convenient storage of the recirculation tank
